

Statement

“CHAM-MATE” produced by Sturdy Industrial Co., Ltd. is an environmentally friendly product and does not cause pollution. The effectiveness of cleaning effect will be reduced after the product expired. If you want to dispose it, please follow one of the following two method.

1. To dissolve “Cham-mate” in water and run through a standard sterilization cycle by autoclave sterilizer, then the drain the water in according to the local government laws and regulations. After cleaning process, please fill distilled water in the chamber and run 2 or 3 cycles without Cham-mate to avoid any Cham-mate residue. or
2. For “Cham-mate” that haven’t been used and need to be disposed after expired, please place the powder of Cham-mate into appropriate container and neutralize it with “Lime”. Next, you can follow disposal of the general waste according to the laws of the local government.

During above process, please make sure to stay in a natural aeration and to wear protection avoiding any contact with your eyes and skin. If you have any allergies, please rinse it with plenty of water and contact your medical care immediately. If you swallowed Cham-mate accidentally, please consult with your doctor or pharmacist instantly.
